PROPOSAL 1:

INTRODUCTION OF DIGITAL ILLUSTRATION COMPETITION IN
OPEN IIT

PROPOSAL 2:

FORMATION OF A LOGISTICS TEAM UNDER INTER-IIT
CONTINGENT STRUCTURE

PROPOSAL 3:

ELEVATING GENERAL CHAMPIONSHIP SPIRIT: OPENING
CEREMONY, LIVE STANDINGS ON TSG WEBSITE, JOINT
PARTICIPATION SYSTEM & INTER-IIT-INSPIRED POINTS
STRUCTURE.

PROPOSAL 1 : INTRODUCTION OF DIGITAL ILLUSTRATION COMPETITION IN OPEN IIT

OBJECTIVE:

The aim of this proposal is to create an online digital illustration competition where participants illustrate within a given timeframe, showcasing their creativity in a competitive environment.

IMPACT:

It will provide students with a platform to showcase their digital design skills. It will prepare students for major design competitions by simulating a structured yet competitive environment. The competition will enhance participants' speed, creativity, and confidence through an engaging challenge.

IMPLEMENTATION:

- The competition will be conducted as an online event.
- Participants will have 48 hours to conceptualize and create a complete digital illustration based on the provided theme, allowing flexibility while maintaining the pressure of a deadline.
- The theme will be revealed online at the start of the competition to ensure fairness and test spontaneous creativity. This prevents pre-preparation and puts all participants on equal footing, challenging their ability to think and create within the given time frame.
- Participants will be required to use their own devices and software. This allows artists to work with tools they are comfortable with and eliminates the need for organizers to provide specialized equipment.
- An external judge will evaluate all entries after submission.

NECESSARY GROUNDWORK:

To effectively establish this competition, we will create a detailed plan for online submissions,

technical setup for judging, and participant registration. We will collaborate with the administration and the Technology Students' Gymkhana to secure the necessary resources.

JUDGING CRITERIA:

- **Artistic creativity and originality** (40 points)
- **Technical skill and execution** (30 points)
- **Overall presentation and impact** (30 points)

RULES FOR THE OPEN IIT DIGITAL ILLUSTRATION EVENT:

- This is an individual event.
- Entries must be created digitally. Any software and tool can be used to create the illustration.
- Entries must be original and created solely by the participant. Plagiarism or use of copyrighted materials is strictly prohibited.
- Participants must submit their illustrations within 48 hours of the problem statement release.

BUDGET:

- Judge Fee: ₹3000/-

PROPOSAL 2 : FORMATION OF A LOGISTICS TEAM UNDER INTER-IIT CONTINGENT STRUCTURE

OBJECTIVE:

The aim of this proposal is to create a dedicated Logistics Team to assist the Contingent Leader and Deputy Contingent Leader in handling non-technical, organizational, and logistical aspects of Inter-IIT preparation and participation.

IMPACT:

This Logistics Team will streamline administrative tasks such as venue bookings, equipment arrangement, travel coordination, and documentation work. By reducing the workload on the Contingent leadership and event Captains, it will allow Captains to focus solely on team building, training, and event preparation. This structure ensures smoother overall functioning of the Inter-IIT contingent and more effective coordination across all participating teams.

IMPLEMENTATION:

- **Structure:**
 - The team will be named "Inter-IIT Logistics Team" with a maximum size of 5 members.
 - The team will directly report to the Contingent Leader and Deputy Contingent Leader and communicate effectively with captains.
- **Responsibilities:**
 - The team will assist in Inter-IIT related logistics including documentation, movement coordination, and event-day execution.
 - Work under the direction of the Contingent leadership - Executing strategic plans set by the leadership while providing operational insights, adapting to changing priorities, and ensuring all logistics align with the contingent's competitive goals and resource constraints.
 - The team will support societies with common logistical needs related to Inter-IIT participation.

NECESSARY GROUNDWORK:

We will establish a clear selection process for team members and create detailed guidelines for the team's responsibilities and authority. The leadership structure and reporting mechanisms will be clearly defined to ensure smooth operation.

PROPOSAL 3 : Elevating General Championship Spirit: Opening Ceremony, Live Standings on TSG Website, Joint Participation System & Inter-IIT-Inspired Points Structure.

OBJECTIVE:

The proposal aims to elevate the General Championship by creating an engaging opening ceremony, integrating live result displays TSG website, and implementing a joint participation system alongside a standardized Inter-IIT points nomenclature. This approach is designed to increase inclusivity and competitive spirit by ensuring that every performance is transparently tracked and recognized.

IMPACT:

These changes are expected to generate greater enthusiasm among participants and spectators, enhance transparency through real-time standings, and promote a more unified campus culture. By standardizing performance evaluation, the system rewards both participation and excellence, fostering collaboration across halls and departments while aligning the event with Inter-IIT standards.

IMPLEMENTATION:

- **Joint Participation System:**

- Two Halls of Residence may form a Joint Team for group competitions if at least one hall did not participate in that event last year.
- This applies only to group competitions, not solo events.
- If a Joint Team wins a position, the points will be equally divided between the two halls.

- **Inter-IIT Style Points System:**

- All participating teams will earn points based on their rank, not just the top 3.
- Points distribution:

Rank	Percentage of points received
1	100
2	80
3	60
4	40
5	30
6-8	20
9 or below	10

- **Opening Ceremony:**

- Host the opening ceremony in a central auditorium with each hall's representative (preferably General Secretary Social and Cultural) delivering a brief speech, guided by a master of ceremonies. A Hall of Residence may showcase their talent after a discussion in the subcommittee.
- Unveil and prominently display the championship trophy on stage.
- Collaborating with various societies to make the event more special.
- Budget cost: Light and Sound: ₹5000/-
 Miscellaneous: ₹2000/-
 Total cost: ₹7000/-

- **Live Standings on Gymkhana Website:**

- Collaborate with the event team to gather live points data and ensure it is displayed prominently on the Gymkhana website for all to see in real time.
- Coordinate with website managers and event organizers to review the live points table regularly, ensuring accurate and timely updates throughout the championship.

NECESSARY GROUNDWORK:

We will establish clear guidelines for joint team formation, including deadlines and notification procedures. The points distribution system will be formalized and communicated to all halls well before the start of the General Championship. For the live standings on gymkhana website we will coordinate with the technology coordinator. The acts of halls for the opening ceremony if they want to showcase their performance will be discussed in the subcommittee meeting.
